

Stage 5

The SuperMind Accelerator

True success is not defined by the achievement of one big goal but rather by the continual pursuit and exploration of what is at the leading-edge.

The SuperMind Accelerator is geared for entire organizations or individual teams who are working on specific projects or initiatives that require a high degree of innovation and speed of completion.

The key ingredients for the success of these sessions are:

1. The project is fully supported by senior leadership and is regarded as important and urgent
2. Everyone on the team is committed to creating something that has never been achieved before
3. Co-creation activities will be used with tangible application and immediate value
4. Every team member is 100% responsible for Co-Creation
5. Everyone on the team is challenged to operate at the leading-edge

From this point on, your entire organization will be inspired and driven by the continual pursuit of excellence and unlimited potential.
